

FIRAS RIHAN

Senior Full-Stack Software Engineer | Team Lead

Beirut, Lebanon | +961 71 379 253 | firas.s.rihan@gmail.com | [linkedin.com/in/firas-rihan](https://www.linkedin.com/in/firas-rihan)

PROFESSIONAL SUMMARY

Senior full-stack engineer with 5+ years of experience delivering production systems, currently serving as technical lead for a business-critical retail-operations platform used daily by staff across 6,000+ U.S. retail locations (Metro by T-Mobile), supporting inventory, ERP, point-of-sale, and back-office operations behind a significant share of the phones, SIMs, accessories and other items sold in the U.S and internationally. Progressed three levels in under four years at Acksession LLC, and selected to support Realtime's flagship platforms, an engagement reserved for the company's most experienced engineers given the scale and criticality of the systems involved. Strong full-stack background across React/Next.js/Angular front ends, .NET Core/Node.js back ends, and Azure/AWS cloud infrastructure, with a track record of leading engineering delivery and partnering directly with business stakeholders.

EXPERIENCE

L3 - Senior Software Engineer, Team Lead

2024 – Present

Realtime — Metro by T-Mobile Retail Technology Partner (via Acksession LLC, outsourced engagement) — Remote

- Acting technical lead for the Client Support system, the most feature-rich platform in Realtime's product suite, used daily by Realtime to Support T-Mobile retail store staff nationwide to resolve issues across inventory, back-office, and point-of-sale systems.
- Primary technical point of contact with business stakeholders, translating store-level operational needs into engineering requirements and delivery priorities.
- Own architecture and delivery decisions for major features end-to-end, guiding engineering approach, code quality, and technical direction for the team.
- Recognized multiple times as Employee of the Month for delivering a high-impact feature critical to daily store operations.

L3 -Senior Full Stack Engineer

2022 – Present

Acksession LLC — Remote

- Design and build full-stack applications end-to-end (React/Next.js/Angular front ends; ASP.NET Core & Node.js back ends) across inventory, ERP, POS, e-commerce, and municipal billing domains for multiple clients.
- Delivered systems including a multi-tenant medical platform (Solvit), a municipal resident-mapping & billing platform (Green Horizon), and a full point-of-sale suite spanning storefront, admin portal, e-commerce, and image services.
- Built identity & access management for an ERP platform (ERP-IAM), designed RESTful APIs, and worked across AWS infrastructure (ECS, Amplify, RDS, Cognito, Secrets Manager).

Software Engineering Department Manager & Full Stack Developer

2021 – Dec 2022

CST-LB — Beirut, Lebanon — On-site

- Managed the software engineering department while remaining hands-on, building and shipping the company's full public website and internal tools (Next.js/Node.js).

Full-Stack Development Intern

Jun – Sep 2021

White Stork — Beirut, Lebanon

Front-End Web Development Intern

Jun – Sep 2019

WE — Beirut, Lebanon

PERSONAL PROJECT

Moon Battle — Browser-Based Logic Puzzle Engine (TypeScript)

- Built a from-scratch puzzle generator and solver: region-growing generation algorithm, seeded PRNG (mulberry32) for reproducible puzzles, and a dual-solver architecture pairing a brute-force uniqueness verifier with a human-logic solver (naked singles, locked candidates) to guarantee unique, human-solvable puzzles.
- Implemented automatic difficulty classification and a stateless hint system, alongside a fully responsive UI.

EDUCATION

M.Sc., Computer and Communication Engineering — Lebanese International University Honors Graduate — GPA: 3.23/4	June 2023
B.Sc., Computer and Communication Engineering — Lebanese International University President's Honors with Distinction — GPA: 3.78/4	June 2021

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, C#
Frontend: React.js, Next.js, Angular, React Native, Razor, Material UI, Ant Design, Bootstrap, Tailwind
Backend: ASP.NET Core, Node.js (Express), RESTful APIs, MVC
Data: SQL, NOSQL
Architecture: Clean Architecture, Modular Monolith, Microservices, Message Brokers
Testing: Cypress.js, Jest, xUnit
Cloud: Azure, AWS

LANGUAGES

English (Bilingual) | Arabic (Native) | French (Conversational)
